

ADEKA NOL GT-series

Intelligent polymers for Personal Care

Memory Gel Thixotropic

ADEKA NOL GT-930

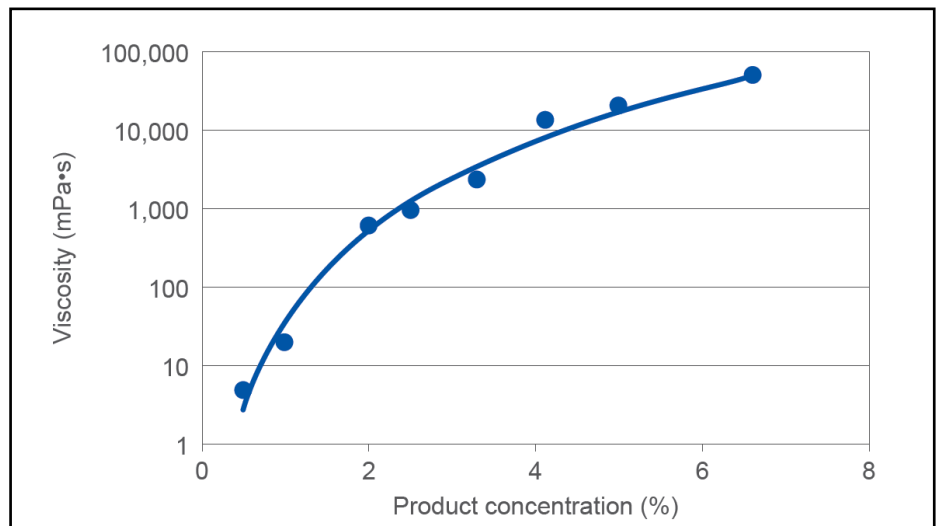

PROPERTIES

GT 930 is a hydro gelator, in particular suitable for solid containing formulations, i.e. powder dispersions. Its superior powder dispersion ability makes it an enhanced carbomer equivalency. Surfactant free

O/W-emulsions can be prepared when employing powders.

KEY BENEFITS

- Superior powder dispersion
- pH-independent and salt tolerant
- Surfactant free, powder containing, emulsions

(i) GT 930, 0.8% active with 5% Titanium dioxide. Three month stability.

(ii) Standard thickener solution, 0.8% active with 5 % Titanium Dioxide.
